Day 1:

Leave at 8:00am. We'll travel to the Big Water Area, about 2 hours. Once there, we will start our weekend with 3 shorter hikes, have lunch along the trail and enjoy the sunset from the deck of our house. The Nautilus, 1.1 miles, will take us to a white sandstone formation similar to the famed Wave. Moon Rocks, 3.7 miles, will take us to an out of this world area. And lastly we will start our hoodoo filled weekend at the Toadstools hike, 2.2 miles.

Day 2:

We will have our longest hike of the weekend today, 9.22 miles, as we journey to the Wahweap Hoodoos. We will see amazing landscapes along the entire trail and multiple groupings of the white hoodoo wearing hats. We'll have lunch along the trail and take our time. We'll end our day by watching sunset from Wahweap overlook.
